

AD420 • ME444 • MKTG594 Motorola Project
Fall Semester, 2006**Stephen Melamed**, Industrial Design, College of Architecture & Arts
Albert Page, Marketing, College of Business Administration
Michael J. Scott, Engineering, College of Engineering**Team Evaluation Form**

At times throughout the year, each student will be asked to evaluate the contribution made to the project by each team member. You will be asked to evaluate yourself and your teammates for both *contribution* and *effort*. Please consider only the time period since the last evaluation. Note that the numbers you assign to your own performance are for reference only and do not affect anyone's grade, including your own.

Contribution

You are given 100 points to assign to the team in accordance with the **contribution** made to the project by the individual team members. You may think of this as the percentage that each student contributed to the project to that point. Include yourself, make sure it all adds up to 100, and remember that effort is assessed separately.

Student	Contribution
1) Self:	
2)	
3)	
4)	
5)	
6)	
7)	
Total:	100

Effort

Please assess the relative **effort** devoted to the project by the members of your team. Assume that you rate a 10 on the effort scale. If another team member expended twice the effort, give them a 20, half the effort, a 5, and so on.

Student	Effort
1) Self:	10
2)	
3)	
4)	
5)	
6)	
7)	

Submission

All team evaluations will be web-based and will be submitted through the IPD class web site. <http://design.me.uic.edu/IPD>
